TamlynWrap® Elite is a residential grade moisture management product. This innovative product combines a non-woven backing with a durable coating to offer a balance of strength, moisture resistance, air infiltration protection and vapor permeability. This non-perforated Water Resistive Barrier (WRB) is an economical option providing excellent moisture protection as well as wind and tear resistance. The ideal vapor permeability facilitates drying of unwanted moisture, may be used in all climate zones and is suitable for use behind all cladding systems. TamlynWrap® Elite meets or exceeds all residential code requirements at an affordable price.
