

FEATURES/BENEFITS

- Double-Sided
- Unique butyl blend compound designed specifically to maintain seam integrity
- Maintains elasticity and splice integrity when subjected to severe UV rays, thermal shock, stagnant water, and extremely low-temperatures.
- 12 month shelf life in conditioned space
- 15 year limited warranty
- Essential for air barrier system performance
- Convenient 2" x 65' rolls

XtremeSeam™ Tape is a unique 2" x 65' double-sided butyl blend tape for sealing horizontal and vertical overlaps. It is essential for maintaining a proper seal between layers and for air barrier system performance. XtremeSeam™ Tape is a durable material that has superior resistance to weather elements. XtremeSeam™ Tape exceeds industry requirements for splicing materials.
