

TamlynWrap® ProSelect™ Commercial Wrap

Tech Support / Sales: 800-334-1676
www.tamlyn.com

HIGH WATER RESISTANCE

Protects the building against moisture intrusion that can lead to the decay of building materials.

AIR BARRIER PERFORMANCE

Protects against air infiltration that reduces insulation R-value performance, improves energy efficiency and overall indoor comfort.

VAPOR PERMEABLE (19 PERMS)

Facilitates drying of wall components limiting the potential for mold and water related damage.

DURABLE

Strong non-woven structure provides superior UV (270 days), tear and blow-off resistance.

MULTIPURPOSE

May be used in commercial, multi-family or residential applications

EASY INSTALLATION

Non-woven structure is light weight, flexible and easy to integrate with other wall components. The roll size is safer to handle at elevated levels.

SUPERIOR WARRANTY

Backed by a 15 year product or 25 year product and labor limited warranty

When your building envelope requires a quality layer of protection, TamlynWrap® ProSelect™ is the right choice for the professional builder, designer or contractor. TamlynWrap® ProSelect™ is a high performance water and air resistive barrier designed for the harsh conditions of a jobsite and all climate zones. TamlynWrap® ProSelect™ is made from multiple non-woven and barrier layers that provide superior durability, moisture and air infiltration protection. The tough non-woven structure is backed by an industry leading warranty of up to 25 years making TamlynWrap® ProSelect™ the right choice for your residential, multi-family or commercial project. TamlynWrap® ProSelect™ is unique in its development for focusing on improving building performance as well as the installation quality and jobsite safety.
