- Excellent Moisture Resistance
- Mold & Mildew Resistance
- Wind & Tear Resistance
- UV Resistant up to 365 days
- Fast & Flexible installation
- Resists Cracking
- Dimensionally stable
- 15 year limited warranty

Utility Moisture Flash is a heavy duty, flexible, tear resistant, woven polypropylene nail on flashing. It is designed to help prevent moisture and water from entering the wall cavity at the base of the wall, corners, or when used around windows and doors. Utility Moisture Flash is engineered to provide excellent durability when exposed to high UV rays and has the ability to withstand high winds. The cross woven design is to be mechanically fastened with capped fasteners. Easy to integrate with any water-resistant barrier, flashing and other wall components.
