TAMLYN®

FAMILY. VALUE. SERVICE.

TAMLYN was established in May 1971 by Ron Tamlyn, Sr. with \$800 borrowed money and help from his wife, Jean, in a small shed in the back yard of their modest home in Bellaire, Texas. From a small shed, TAMLYN became a multi-million dollar, international business with a product line to match. In 2017, Tom Tamlyn became CEO and Miguel Gonzales now leads TAMLYN as President. Our history is one of quality, innovation, and proven performance. We are proud to represent the manufacturing end of the building products industry, and remain a competitive manufacturer committed to making products in America, giving customers a choice and not putting all their eggs in an uncertain import basket. An overwhelming majority of our products are still made in the USA. We believe it matters in helping America keep control of its destiny.

LIMITED WARRANTY

TAMLYN warrants defective-free products for a period of 10 years for the original purchaser unless otherwise stated for the specific product ordered. TAMLYN products are further warranted as to adequacy of design, provided products are properly specified and installed. This warranty does not apply in the event products are altered in any way or are improperly installed. Liability is limited to replacement of products proven to be defective. TAMLYN has made no other warranty, express or implied, regarding its products, including but not limited to, any warranty regarding merchantability or fitness for a specific purpose. Any claim that a product is defective must be brought within 1 month of the date of installation of such products to the original purchaser. Customer hereby agrees that no other incidental or consequential damages are the responsibility of TAMLYN.

Responsibility remains with the architect or engineer, contractor and owner for the design, application and proper installation of each Tamlyn product. Specifier and user shall determine the suitability of products for specific application and assume all responsibilities in connection there within.

PLEASE NOTE

TAMLYN reserves the right to change designs, specifications and product availability without notice or liability for such changes. Samples of our products are available upon request at no charge.

TAMLYN products are typically identified using an alphabetic descriptor system which makes it easier to find a part by it's "number".

TAMLYN products are produced in a variety of gauges and finishes. Here, also, we are utilizing an alphabetic descriptor "number" on the majority of items.

Regional variances in naming of roofing trim parts is common.

TAMLYN uses the names in most common use in the markets where we are based.

Unless specifically noted all dimensions are nominal and are intended to be used as such in the same manner as common lumber dimensions.

ME

ITEM ID	FACE	ON ROOF
ME130	1"	2"
ME11230	1-1/2"	1-1/2"
ME240	2"	2"

DESIGN FEATURES

Economical Metal Edge for general use. Deflects water away from fascia board. Hemmed edges for safe handling. Dimensions are nominal.

MATERIAL

Available in Bldr, or STD, or 26 Ga GZD or standard colors as listed.

*For PAINTED specify stock color -AM- Almond, BR -Brown, BK -Black, CB - Charcoal, WH - White, Other colors are Special order.

MG

ITEM ID	FACE	ON ROOF
MG2540	2-1/2"	1-1/2"
MG260	2"	4"
MG360	3"	3"

DESIGN FEATURES

Metal Edge for general use. Deflects water away from fascia board. Unhemmed edges require cautious handling.

MATERIAL

Available in Bldr, or STD, or 26 Ga GZD or standard colors as listed.

*For PAINTED specify stock color -AM- Almond, BR -Brown, BK -Black, CB - Charcoal, WH - White, Other colors are Special order.

DL

DESIGN FEATURES

Style "D", "DL", or Eave Drip are common names for this item. Deflects water away from fascia board. Hemmed edges for safe handling. Extended lip helps prevent shingle damage. Open nose of edge allows ease of installation on steeply pitched roofs.

MATERIAL

Available in Bldr, or STD, or 26 Ga GZD or standard colors as listed.

*For PAINTED specify stock color -AM- Almond, BR -Brown, BK -Black, CB - Charcoal, WH - White, Other colors are Special order.

TF

DESIGN FEATURES

Provides protection on ledgers, joists, etc by forcing termites to build visible channels.

ITEM ID	ON JOIST	FACE
TF2060	4"	2"
TF3080	5"	4"

TERMITE SHIELD

TS

DESIGN FEATURES

Versatile pan has many contractor/home uses, including termite shield, pier cap, vaporizer pan, pot holder, oil drain pan, AC condensation drip pan in attic or to hold runoff while stripping furniture. Termite Shield doesn't totally eliminate termite infestation, but forces them to build easily visible channels.

ITEM ID	BLOCK OR POST SIZE

TS917	8" X 16" or Smaller
TS1717	8" X 16" or Smaller

PLYLOX

DESIGN FEATURES

PLYLOX™ window clips are the ingenious, inexpensive, non-destructive way to protect your windows from high winds and airborne debris. Installed in seconds, PLYLOX™ window clips slide onto the edge of a 1/2" and 5/8" plywood sheet which is then easily inserted into the exterior window casings of your home or business. No drilling holes. After protecting your home or business from high winds and flying debris, the plywood can be removed in seconds without tools.

RESIDENTIAL SAFETY STRAP

RRS46

DESIGN FEATURES

RRS48-One Time Use Strap Through Wall or Soffit Vents designed to last as Long as the building. Made from premium quality Stainless with all Stainless mount screws and all with Sealing gaskets. Packed in blister packs and merchandiser boxes.

2" Wide Synthetic Webbing Strap with a 2-1/2" D-ring sewn to one end. The opposite end has a folded and stitched loop. Attachment to structural frame members is by looping "D" Ring end through the web loop end around the frame member and pulling tight.

NOTE

This device must be installed according to the detailed procedures for the specific use application as shown and supervised by a trained competent person. Not reading, understanding, and complying with the instructions could result in serious injury or death. RRS46 is a single component of a fall-arrest system, take care to inspect this parts and all other components for damage or mis-use prior to actual use. The location and attachment of safety straps must be in a manner that assures that the strap is attached to a structural or framing member that will securely provide the strength needed to support the person using the strap. Do not use straps in conditions where temperatures would exceed 200°F. Do not expose to welding or corrosives.

HMA

DESIGN FEATURES

Used to connect continuous soffit vent items, to join fiber cement or hardboard soffit and many other applications. Used when increased rigidity is needed.

MATERIAL

6063-T5 .45" Extruded Aluminum Mill Finish

ITEM ID	DEPTH	A	B
